### and for Covering ds Prices Upward

Selling Proves to Have Unsuccessful Coup of Bear Professionals.

YORK, July 24 -The action of ck market was strongly sugthe inference that the considng which broke prices on Satfrom professional bear sources It was not successful in dissuch stock for the purposes of short contracts. The demanding during the first hour of to-slon was sharp and sent prices with quite a strong impetus. Overnent was largely prompted, by a revision of siews over the mage and over the danger of an a miners' strike which were on Saturndy. The large amount that appeared for sale, the specuess of the market for that y in the Northwest, and the fine weather over the spring it were the materials of evilons Saturday's crop scare, ional element was the very concept of railroad officials in their reskly talks over traffic out-rding the feeling in their reh stock for the purposes of

is of railroad officials in their reskly talks over traffic out-turding the feeling in their re-territories as reflected in prep-for future business. A general n was reported on the part of to go ahead with plans based ation of a favorable outcome of

differences having to do with

e differences having to do with seas of freight as between the Atlantic port lines and with rates among the trunk lines ated as of minor consequence, over the labor outlook in the was declared to be factifious tof the remoteness of the fixnew agreement. These were factors, without doubt, in the veries of prices.

of large buying of rails and steel products were a favormee on the list generally and on distances of the latter there a disposition to anticipate a from the favorable showing to the July quarter, which a commonly expected will be by the quarterly statement of to be given out by the corposorrow.

in spite of the lessened strength of the banking position disclosed by the weekly bank statement. The large influence played by the Japan funds on deposit here in the currence case of money is

played by the Japan funds on deposit here in the currence case of money is regarded with some solicitude, owing to the large effect that might be produced on our money market by unannounced financial movements on the part of the Japanese government.

The reported quarantine on Southern railroad lines seemed to be ignored and the developments in foreign politics were without apparent interference. There was a comparative lapse in interest after the first hour of the trading, but the advances were well held up to the close, which was firm.

Stock Market Letters. James A. Pollock & Co., stock and grain brokers, 6 West Second South street, make public the following letters on the stock market: Dick Brothers, New York, say: "Re-

Hutton, New York, says: 'Two factors in today's trading stemmed the tide downward and caused some short covering. The break in wheat of three cents per bushel and the factor of Steel report coming out tomorrow which will be favorable. There was also a covering movement. However, there was an absence of any good buying indicating to us that banking interests were content to allow the security market to take its own course. We believe the market can be sold on any strong spots for the next few weeks."

Reading the strong point at a 2 point

Hutton, New York, says: 'Two fac-

own course. We believe the market can be sold on any strong spots for the next few weeks."

Marshall Spader & Co., New York, say: "We are not inclined to lend much importance to the existence of yellow fever in New Orleans as a marker influence, as present methods of handling this disease should make the repetition of its ravages in the past, very improbable. The condition of the maket at this time is somewhat vulnerable to attacks on specialties. It is probably well to await developments before making broader commitments on the long side of the market.

T. A. Mcintyre & Co., New York, say: "The spring wheat crop scares collapsed today with the receipt of dispatches from editors of responsible newspapers in Minnesota and the Dakotas, also from others whose judgment is regarded as free from blus. The collapse of 5 cents per bushel in the price of July wheat at Chicago from Saturday's price, and over 3 cents for the September and December options, seemed to confirm these reports. In response to this change there was good buying throughout the list, with nearly all the big houses and large operators who were such heavy sellers throughout Saturday's session active in getting back their stocks. The market should have advanced much more than it did during these changed conditions. We however feel that it will do better before the close of the week and would now rather advise purchases of any of the better class of stocks than suggest short sales.

Logan & Bryan, New York, say: "The market closed strong and higher, showing quite a reversal of form from Saturday's veak closing. It may be that the break in the wheat market due to more favorable weather for the spring wheat contributed much to the improved tone, but whatever the cause the market throughout the session showed a decided improvement in sentiment. We are between seases and the crop situation is likely to take an active part in price-making for some time."

Grain and Provisions.

Grain and Provisions. CHICAG, July 24 -A break of 5%c bushel in the price of wheat for July delivery occurred here today. At the same time the September option sold off 35-36 Nic. Denial of sensational reports of black rust damage to the spring-sown crop caused the heavy profit-taking that resulted in the sharp declines. The market closed weak, with September down 303% as compared with final quotations of Saturday July wheat shows a loss of precisely 4 cents. Corn is off \$234c. Oats are down %c. Provisions are up 52

The wheat market was weak throughout the entire session. The greatest weakness was manifested during opening transactions, initial quotations for July being of Panishe at 876394c. September was down 15-204c to 25-204c at 87639c. The primary cause of the sharp reaction was optimistic advices concerning the condition of the wheat crop throughout the Dakotas and Minnesota. In addition the weather in the Northwest was faworable to progress to the growing crop and unfavorable for the spread of black rust.

black rust. Fresh reports of rust were received, but they tacked definiteness. Bears were given additional encouragement by continued liberal movements of new wheat in the Southwest, arrivals today at St. Loris and Kansas City being 1,148,000 bushels compared with 525,000 bushels a year ago.

After the Brst. rush to sell was over the market held comparatively steady, the price for September during the remainder of the session being confined within a cent range. During the last few minutes of trade, however, selling again became heavy. As a result fresh weakness developed. The close was weak with September at 875c. July closed at 885c. Clearances of wheat and flour were equal to 88,300 bushels. The visible supply decreased 464,000 bushels. Primary receipts were 1,631,000 bushels, compared with \$33,000 bushels a year ago. Minneapolls, Duluth and Chicago reported receipts of 538 cars, against 241 curs last week and 450 cars a year ago.

Bearish sentiment was manifested in the corn pit all day. Large receipts and excellent crop weather were the principal weakening influences. The close was quite stoady. September opened \$4,005c and 515c and closed at 515c. Local receipts were 331 cars, with 69 of contract grade. The slump in wheat caused considerable profit-taking in oats early in the day. September opened \$4,005c and 515c and closed at 515c. Local receipts were 331 cars, with 69 of contract grade. Notwithstanding weakness of grain provisions were firm. Shorts were active buyers. Commission-houses also bought freely. At the close September pork was up 16c at \$13,024c. Lard was up 16715c. at \$1,104,507,200 Righ Low Close.
